

SC Intervenes, Takes Note of Migrants' Plight

In suo motu action, SC asks govt for an account of the relief work

Samanwaya.Rautray @imesgroup.com

New Delhi: The Supreme Court asked the central and state governments to provide adequate food, shelter and transport free of cost to the migrants who are still stuck on highways for lack of transport.

Taking suo motu cognisance of the plight of migrants, who were left stranded when the Centre imposed the nationwide lockdown from March 25, the court on Tuesday cited lapses and inadequacies in dealing with migrants and asked the central and state governments to give an account of all that they have done for the workers so far.

"We are of the view that effective concentrated efforts are required to redress the situation," said a bench led by Justice Ashok Bhushan while giving the Centre and state governments two days to respond to the court's notices.

The top court was being facing severe criticism in recent days for refusing to deal with the issue. SC Bar Association president Dushyant Dave and senior advocate Rakesh Drivedi, among others, had criticised the court for abdicating its constitutional responsibility to step in and review executive action during a pandemic.

On Tuesday, the bench, comprising justices Sanjay Kishan Kaul and MR Shah as well, took suo motu cognisance of the miseries of migrant workers and said this section needed succour in this hour. The same bench had earlier sides stepped the issue saying it could not monitor those who were walking back to their homes.

Defence Min apprises PMO of China border situation after meeting Army brass, officials, diplomats

Top-Level Security Review of LAC; Status Quo Remains

Our Political Bureau

New Delhi: The government has undertaken a top-level security review of the situation along the China border, where tensions have flared up over the past month after PLA troops marched across the Line of Actual Control in the Galwan valley and along the Pangong Tso lake in Ladakh in a breach of border agreements.

A comprehensive review of the boundary situation at the senior-most levels involved the top military leadership, diplomats and the National Security Council Secretariat and the ground situation in Ladakh was discussed, as well as ongoing efforts to resolve the crisis through diplomatic channels.

Sources said the meeting was preceded by a series of consultations within the Defence Ministry and a detailed analysis was presented to the Prime Minister's Office (PMO). The situation on the border, where Chinese troops have intruded into Indian territory at four separate points, has not changed over the past few days, with

both sides maintaining troop levels in what has resulted in a military stalemate.

While there have been efforts not to escalate the matter militarily, sources believe that a Doklam like approach could be maintained to resolve the crisis. In the Doklam crisis on the Sikkim-Bhutan boundary in 2017, India maintained a steady ground presence of troops, while diplomatic talks were undertaken at the top-level to ensure that a tipping point was not reached.

As first reported by ET, Chinese troops have poured into the Galwan valley in Eastern Ladakh over the past few weeks and have laid claim to what has been Indian territory. The incursion seems to have been provoked by border infrastructure being built by India and is not limited to the Galwan area, with Chinese troops also occupying a section of the Finger area, along the Pangong Tso. China, no doubt, remains a significant threat, but India has to balance its approach and ensure not to be carried away by emotions, a senior expert said.

Enhance Combat Readiness, Xi tells PLA
Press Trust of India

Beijing: Chinese President Xi Jinping on Tuesday ordered the military to scale up the battle preparedness, visualising worst-case scenarios and asked them to resolutely defend the country's sovereignty.

Xi, 66 who is also the General Secretary of the ruling Communist Party of China (CPC) and head of the two-million-strong military with prospects of life's tenure in power, made the remarks while attending a plenary meeting of the delegation of the People's Liberation Army (PLA) and People's Armed Police Force during the current parliament session being held here.

Xi ordered the military to think about worst-case scenarios, scale up training and combat preparedness, promptly and effectively deal with all sorts of complex situations and resolutely safeguard national sovereignty security and development interests, state-run Xinhua news agency reported. His comments came in the backdrop of the nearly 20-day standoff between India and China at the LAC. Several areas along the LAC in Ladakh and North Sikkim have witnessed major military build-up by the Indian and Chinese armies recently.

Mumbaiites Rent Oxygen Cylinders Amid Scarce ICU Beds

Krishna.Thevar @imesgroup.com

Mumbai: Several people and housing societies in Mumbai are renting oxygen cylinders for use in an health emergency. This is happening simply because of a lack of ICU beds in the city and residents don't want to be caught on the wrong foot.

"We have got two oxygen cylinders in our society, we decided to get it after seeing how people are being turned away from hospitals due to lack of beds. We have a doctor in our complex and we have learnt how to operate it," said Salim Motorwala a resident of Orchard Towers in Mumbai Central.

Motorwala's housing complex is not the only one doing this according to Mumbai's MLA Amin Patel. There are several people and housing societies renting oxygen cylinders. "I am myself working to set up a 200 oxygen cylinder bank in the city that would cater to patients who are not able to get beds in the city," said Patel.

There is an acute shortage of ICU beds in private hospitals and the situation is such that many private hospitals tell patients that there is a waiting period. The waiting period stretches to 30 patients in Mumbai's private hospitals.

A prominent hospital in South Mumbai had a waiting period of 30 patients on Monday. "We have seen a lot of people die due to lack of ICU beds. By the time they get admission, its too late. One of our own volunteer's husband unfortunately succumbed as he could not get a bed in time," said Zohair Diwan.

Diwan has formed a group with several like minded people, doctors and nurses and has arranged for ten oxygen cylinders.

Zohar Motorwala, who is also in the group, said that unlike other ailments Covid-19 patients can't be kept in a waiting list. "By the time we arrange a bed for a patient after the waiting period, it gets too late. So, we have decided to arrange for oxygen cylinders."

With several people buying and renting the oxygen cylinders there is also a shortage of oxygen cylinders in the city.
