Balance Sheet: As of March 31, 2006

During 2005-06, the Bank's total balance sheet size increased by 42.9% to Rs. 73,506.4 crores. Total Deposits increased by 53.5% from Rs. 36,354.3 crores (as of March 31, 2005) to Rs. 55,796.8 crores (as of March 31, 2006). Savings account deposits at Rs. 16,185.8 crores and current account deposits at Rs. 14,752.5 crores, together accounted for approximately 55.4% of total deposits as of March 31, 2006. During 2005-06, gross advances grew by 48.1% to Rs. 38,412.6 crores. This was driven by a growth of 79.7% in retail advances to Rs. 21,231.1 crores, and an increase of 21.7% in wholesale advances to Rs. 17,181.5 crores. One of the reasons for the high growth rate in retail loans was that the quantum of retail loans securitised (sold) during the year was less than half of the Rs.4,800 crores sold during the previous year. The bank's core customer assets (advances plus credit substitutes like commercial paper, corporate bonds etc.) increased by 44.9% to Rs. 38,992.4 crores in March 2006. In addition, the bank held Rs. 4,457.1 crores of investments in mortgage backed and asset backed securities where the underlying assets were primarily home loan and commercial vehicle/car loans receivables. Total customer assets (including securitisation investments) were therefore Rs. 43,449.5 crores as of March 31, 2006.

Dividend:

The Board of Directors recommended an enhanced dividend of 55% for the year ended March 31, 2006, as against 45% for the previous year (which included a special one-time dividend of 5% on the occasion of the Bank completing 10 years of operations). This would be subject to approval by the shareholders at the next annual general meeting.

Capital Adequacy:

The Bank's total Capital Adequacy Ratio (CAR) as at March 31, 2006 stood at 11.4% as against the regulatory minimum of 9.0%. Tier-I CAR was 8.6%.

During FY 2005-06 the bank achieved healthy growth in its agriculture financing, micro-finance and SME financing activities. With products including the Kisan Gold Card, rural supply chain initiatives and commodity finance covering the entire agriculture financing cycle, the bank's agriculture lending increased by over 60% during the year. The bank now has four business groups catering to various small and medium (SME) customers – extending a wide range of banking services including cash management services, foreign exchange products and electronic banking. During the year, the bank's corporate banking, financial institutions and treasury businesses also continued to expand in terms of number of customer relationships, product penetration and revenues.
