2. Principle-wise (as per NVGs) BR Policy/Policies. (Reply in Y/N)

The 9 principles outlined in the National Voluntary Guidelines are as follows:	
P1	We have a whistle-blower policy and guidelines on anti-bribery and anti-corruption, transparency, and ethical behavior. These form part of our Code of Conduct and Ethics Manual.
P2	We have internal guidelines on the procurement of energy-efficient equipment. Our digital banking initiatives are aimed at making our products and services sustainable. Also, considering the nature of our business, this principle has limited applicability for us.
P3	Our Code of Conduct and Ethics Manual details policies for equal opportunity and prohibition of sexual harassment at the workplace.
P4	We adhere to the RBI guidelines on priority sector lending and financial inclusion, which are aimed at marginalized and vulnerable stakeholders. We do not have a specific policy to address this principle.
P5	Our Code of Conduct and Ethics Manual details a policy on respect for human rights, which adheres to the principles in the United Nations' Universal Declaration of Human Rights.
P6	Considering the nature of our business, this principle has limited applicability for us. Segments of our business are guided by policies which incorporate elements of environmental risk and opportunities in them. For example, our wholesale credit risk policy details a Social and Environmental Management System (SEMS) for screening and monitoring social and environmental risks associated with projects. As part of our Code of Conduct and Ethics Manual, we encourage employees to avoid natural resource wastage and be committed to improving the environment, particularly with regard to the emission of greenhouse gases. They are also encouraged to offset the effect of climate change in all spheres of activities.
P7	We do not take part in any lobbying or policy advocacy.
P8	We have a CSR policy which guides all our CSR activities and includes activities we undertake for marginalized and vulnerable stakeholders. While there is no formal policy in place specifically for equitable growth and development, we have a comprehensive Sustainable Livelihood Initiative (SLI) aimed at achieving this objective.
P9	Our Code of Conduct and Ethics Manual details policies to ensure privacy and confidentiality of customers' data to provide products and services which offer value in terms of price and quality and meet the applicable standards/guidelines as decided by the regulator and other authorities to provide reliable and meaningful information and not make exaggerated claims about our products and services. Some of the policies addressing customer welfare include the customer compensation policy, grievance redressal policy, and the customer acceptance, customer care, and customer severance policy.
