c) Pro-rata Charges

In case of change in account relationship/downgrade of account, the debit card annual charges shall be applicable from the date of change in relationship. The schedule of charges is subject to change from time to time and the customer is requested to refer the annual fees chart Section (a). The customer further agrees and gives its express consent that, in case of a change in account relationship at any point in time, the Bank reserves the unconditional right to levy appropriate charges as applicable for the Debit Card variant on pro rata basis for the period from the date of change in account relationship till the next billing date, as may be applicable.

Example of calculation of pro-rata charges

Customer A is issued a Free of charge Platinum Debit Card on 20th July'23 for having a Corporate Salary account with HDFC Bank. On 20th Oct'23, the customer account relationship changes from Corporate Salary account to Regular savings account. For Regular savings account, the Platinum Debit Card held by the Customer is not a free of charge Debit Card. Since as per the new account changes, the Debit Card held by the Customer is of a higher variant and ceases to be free, pro-rata charges will be levied to the customer for the remaining time period till the next billing date i.e., charges will be levied for the time period of 20th Oct'23 to 19th July'24 where 19th July'24 would be the billing date of Customer.

The charges will be calculated as below:

Platinum Debit Card Annual Charges – Rs. 750 + taxes

Card charges applicable for the time period 20th Oct'23 and 19th July'24, i.e., number of chargeable days 273 days will be $(750/365)*273 = \text{Rs. } 560.96 + \text{Applicable taxes}$
